a performance development company

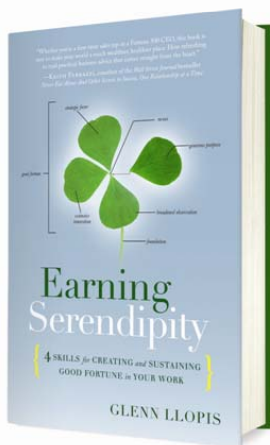

PRESENTS:
INDIVIDUAL AND EXECUTIVE COACHING
WE GUIDE YOU TO SEE AND SEIZE ABUNDANT OPPORTUNITIES!

Opportunity is the true mother of success. Opportunities are always present, and rightly pursuing one can forever change the landscape of one's fortune.

--Glenn Llopis

Today, industries of every stripe are being savaged by a sense of uncertainty, and an overreaching arc of adversity. Even for those whose lives seem secure, the creep of cynicism in today's workplace cultures can make planning beyond tomorrow—much less, plotting an effective long term career strategy—seem like an exercise in futility.

The Glenn Llopis Group (GLG) has designed our individual and executive coaching programs on the idea that adversity, while certainly having the power to make or break a person (or their career), primarily *reveals* that person. Now is the time for action; and our individually or group-tailored programs are designed to teach our clients how to see and seize opportunity more abundantly than ever before.

*"It's no coincidence you picked up **Earning Serendipity** by Glenn Llopis. Its philosophical approach to business is fresh and interesting, with a touch of elder wisdom. Take my advice and read this book."*

—Ken Blanchard, NY Times Best-Selling Author, The One Minute Manager®

By applying the lessons learned from our book, ***Earning Serendipity*** our clients learn to *See and Seize* opportunity, whatever their personal or professional circumstances may be.

History has taught us that great leaders and their organizations *build their own momentum*. At GLG, our goal is to help you develop the tools to do just that, and to teach you how to maintain that momentum of good fortune from this point onward.
